RE: Closeout Reports for Water Tanks 215A and 215D

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the Closeout Reports for Tank 215A (the Water Tower) and Tank 215D (the Evaporation Distillated Storage Tank), dated February 10, 2003. This information was received on February 17, 2004. We appreciate being provided this information for our review.

As stated in these reports, the remaining concrete footers, vault and associated infrastructure will be removed or otherwise appropriately addressed during future D&D or ER activities. At the culmination of these future activities it is expected the remaining infrastructure and all disconnect locations will be shown on maps to be presented at that time.

If you have any questions regarding this correspondence please contact me at (303) 692-3367 or David Kruchek at (303) 692-3328.

Sincerely,

Steven H. Gunderson
